

The Wainwright Record

PROVINCIAL LIBRARY

A Paper For All The People

VOL. 2, NO. 19

WAINWRIGHT, ALBERTA, WEDNESDAY, AUGUST 22, 1934.

\$1.00 PER YEAR IN CANADA.

Wainwright Locals Mrs. J. Wright Passes Away

Mr. and Mrs. H. P. Schlitt and Iris, Mr. and Mrs. Bert Laird and Washburn and Miss Selma Voge, were visitors at the Dunmore cottage on Sunday.

We have learned that the Wainwright Flour Mill has installed a new purifier which adds to the quality and quantity of the flour produced.

Mr. N. Ricker will go to Edmonton on Friday to attend a convention of the Flour Miller's Association.

While Judge Dubuc was here recently he noticed a very peculiar stone in the road north of town. He instructed Bibby's Cartage to deliver it to his residence in Edmonton on his gander.

Hold your grain on your own farm and save storage. In a good granary. Buy granary lumber from the Atlas Lumber Company, Ltd.

The Bawf Elevator had some repairs made this week.

The Gold Standard Oil intend to bring the old interior well, which was one of the early large producers back into production.

Earl Lee and family spent a few days vacation with relatives at Ponoka.

Mrs. Vall is having her home moved from Heath to a location just north of town, where she intends to reside in the future.

Mr. and Mrs. Camille Dupre were visitors in Edmonton on Friday.

Mrs. W. Prosser was on the sick list this week.

During the absence on vacation to the U. S. A. of Hugh Cameron, typewriter and pressman at the Record office, Mr. J. L. Small, of Viking, is relieving in his place.

Nita Coffield underwent an operation for an appendicitis on Tuesday.

"SON OF A SAILOR" FEATURING JOE BROWN

A good comedy. Some of the situations are so funny that the audience will laugh uproariously, as for instance, the one in which Joe Brown finds himself on a ship that was to be used by bombing planes as a target; he makes frantic efforts to warn the aviators to stop bombing it. There are spots in between that are a little draggy, but the story is thin, but there is enough comedy throughout to hold the interest fairly well. Most of it is brought about by the trouble Brown gets himself into because of his bragging ways—he boasts that he is a great fighter, bragging which prompts the commander of his ship to match him against a strong fighter in a championship bout; he wins by a stroke of luck. Another time he boasts about his intimacy with navy officers and then is brought face to face with them.

For Sale

Frost and Wood Binder, almost New, very cheap.

H. W. Love, Irma, Alberta

For Sale

One Aberdeen Angus Bull. Apply to

Thos. W. Shaw, Irma.

For Sale

7 roomed house in village of Irma, 1/2 acre of land, barn, chicken house and pen, good well. All in good condition.

Owner Mrs. S. V. Schonert.

Wetaskiwin Advances into the Semi-finals of Provincial Playdowns

Edges Out a Win in Overtime Game, 6 to 5

Mr. J. C. McLeod received the sad news on Saturday of the death of his sister, Mrs. James Wright.

The deceased lady had been residing with her son since the death of her husband, Wm. Wright, which occurred about 6 years ago. A month ago the son with whom she lived passed away and his sudden death had a serious effect on his mother, and she passed to her reward on August 19th.

The funeral service was conducted by her pastor, Rev. Rathbone, of the Episcopal Church, several favorite hymns of the deceased being sung. "Lead Kindly Light," "Good Night Dear One," etc.

Mrs. Wright was born at Roger Hill, Picton County, Nova Scotia, 86 years ago and had always taken a very active part in the work of the Episcopal church, of which she was a member.

Her sympathies are extended to the bereaved brother, Mr. J. C. McLeod, and sister, Mrs. M. A. Gunn, of Calgary.

FAMILY DAILY

GET-TOGETHER

By — J. D. Skinner

Grandmother lost her purse with money, visiting cards and everything. She had done a foolish thing, but Grandmothers are inclined to do things. Of course Kenneth, her year old grandson, was such a bright boy that he could be trusted with the purse. Grandmother was pushing Kenneth in a go-cart. Kenneth insisted with both hands on having the purse. He had his way as grand-children usually have when the purse is to grandmothers. Shortly after, by way of change of position, the go-cart was being pulled instead of pushed. After going three blocks the purse was missing. Steps were retraced to the point where the purse had been noticed but without avail. Among the people met in the three blocks travelled was a young man in a bathing suit. He was returning from the beach. Upon returning home Grandmother told of her misfortune. She hoped that the purse had been picked up by the young man in the bathing suit who she was sure he would return it. His face revealed his character. Grandmother had not been long home when the phone rang. It was a man calling. He found a purse in which were some cards bearing Grandmother's name. He would call on his way down town. He called. It was Grandmother's purse, and the finder was the young man in the bathing suit whom Grandmother had met.

Suggestions for Discussion at Evening Meals. Monday: Does my face inspire confidence? Tuesday: Is my face a book in which my deeds are recorded? Wednesday: Can I read face language? Thursday: Should I read the face in choosing companions? Friday: Does my face indicate my thoughts? Saturday: Does my face indicate the kind of life I'm living? Sunday: Can the story on my face be changed either way?

SURE CURE FOR FITS—

WE ALL HAVE THEM

This item, "Fits and Their Cure," was unearthed in an old scrapbook. It contains the following sage advice: For a Fit of Passion—Walk out into the open air. You may speak your mind to the winds without hurting anyone or producing trouble to a simpton. For a Fit of Idleness—Count the ticks of a clock. Do it for an hour, and you will be glad to pull off your coat the next and work like a negro. For a Fit of Ambition—Go into the churchyard and read the gravestones; they will tell you the end of ambition.

J. W. Daugherty, local I. H. C. agent has had a very successful season, having disposed of twenty seven binders to date and the season is not yet over.

In Fort William, says the Chat-Ham News, an advertisement appeared for 100 men to work in the pulpwood camps, and only eighteen applied. The rest were taking part in a hunger march.

Irma Local News Items

Born—To Mr. and Mrs. Gordon Ambler, August 17th, a daughter.

Mr. and Mrs. Trendel and baby visited in Irma last weekend.

Mr. J. Headley is in Edmonton on business this week.

The W. M. S. are holding their annual anniversary supper in the church on Thursday, August 30th.

Mr. and Mrs. W. J. Milburn returned on Wednesday from a holiday in Toronto.

The highway graveling has been completed to within two and a half miles of Irma.

Messrs. P. E. Jones, J. Fletcher and S. M. New motored to Thorby on Sunday.

Mr. rank Van Sykle, of the Viking Fox Farm, spent Sunday with friends at Irma.

Council Minutes of Battle River M. D. will appear in next week's issue.

Jack Hardy is moving from second avenue to the Baker house on Third avenue.

Mr. and Mrs. Jack Bishop returned home on Friday from a few days visit at Clyde, Alberta.

Mr. and Mrs. Hawkins, Larson and Mrs. Herbert are making a visit at a few Saskatchewan points.

Miss Marjorie McFarland is visiting at the home of Miss Betty McLean this week.

Mr. Pryce Jones returned from Edmonton on Friday and reports that Mrs. Jones is progressing favorably from her recent operation.

Mrs. D. Tate and family, Mrs. Flewelling and Miss A. Flewelling are visiting relatives at Consort and other points.

Mr. and Mrs. R. Hadley, Mr. and Mrs. E. Simmonds and Roy Locke, left Tuesday morning for a vacation at Banff, Alberta.

Mr. W. N. Fricke and brother, C. W. of Calgary, are away on a short holiday and his family are staying at the Fricke home in Irma.

Mrs. James E. Dayton and Miss Beatrice Thoresen, of Vancouver are expected to arrive on Tuesday for a visit with their sister, Mrs. P. E. Jones.

Miss Marion Higginson is celebrating her twelfth birthday today (Tuesday) with a number of friends as guests at a party.

A lady daughter arrived to gladden the home of Mr. and Mrs. Ludwig Sater, of Strawberry Plains, on Wednesday, August 15th.

Several car loads of local ball enthusiasts attended the final game between Wainwright and Wetaskiwin on Monday evening.

Miss Elsie Allen, of Forburg, has accepted a position with the Messrs. Foxwell and Johnson, and has taken up residence in the home of Mr. and Mrs. Hutchinson.

Mr. and Mrs. Ross and family from Michigan are visiting at the home of Mr. and Mrs. Earl Tomlinson and renewing acquaintance after an absence of twenty-two years. It will be remembered by old timers that Mr. Ross homesteaded in Strawberry Plains district years ago, and was a member of Irma's first ball team.

Mrs. A. Gibson and Mrs. J. Shadbolt seem a bit early with their Halloween pranks. They secured the desired result, however.

We wonder if Bill Dzus still thinks Dorothy G. Should have the title, Miss Hope Valley.

HOPE VALLEY NOTES

Mr. N. H. Armstrong's dwelling was moved to the Asper School District on the 13th inst. where he has been engaged as teacher for the coming year.

Miss Sadie Kirkwood, of Montreal is a guest of Mrs. Duff Moore and other friends.

Miss Annie Trufiak will preside at Giles School after the holidays. It is expected that school will reopen September 4th. A new ceiling has been put in the school, two new windows added and the interior nicely decorated. Altogether it presents a very nice appearance, and it is expected that both the lighting and ventilation have been greatly improved.

The weekend weiner roast sponsored by Henry Hooper and William Dzus was attended by about thirty grown ups and children. Everyone had a good time and plenty of weiners.

Mr. John Moore has been on the sick list. We trust that he will soon be around again.

The Maple Leaf Club held a business meeting on the evening of the 11th inst.

Mrs. A. J. Taylor has returned from a very pleasant visit with her brother in Calgary.

We no tie Mr. S. E. Lawrence on his way from Edgerton recently piloting a "Waterloo Special" threshing separator out this way.

Everyone is all set to rush the cutting season here. It will not be long until we will hear the busy hum of threshing outfits.

Arthur Gibson was busy not long ago supervising the grading of the mile road north of section 22.

Miss Jean Roach is home from Ahumadale after a very pleasant week spent with some of the 1933 C.G.I.T. camp girls.

Steve Matvenko is here from Calgary preparatory to the threshing season.

The Maple Leaf Club held a business meeting at T. Keys Saturday evening.

E. Taylor and N. H. Armstrong have been moving Mr. Armstrong's residence from Hope Valley to Aspen.

The Hope Valley Sports Club held a weiner roast on the sands of a Battle River Sunday afternoon. A certain young gentleman is reported to have devoured twenty-five weiners, "Hot Dog!"

Miss Leone Roach is spending a few days with Mrs. J. Shadbolt.

IRMA UNITED CHURCH NOTES

The services next Sunday will be at Paschenedale, Roseberry and Irma at the usual hours. The theme of the sermon will be "The Three Stages in Religious Experience."

"Love is at the heart of the universe, and as Kagawa would remind us, 'Love is the Law of Life.' The Love of God conquers all—even sin. God knows the depth of sin. He plumbed its depth in the Cross of Christ. He has matched its depth with the height of His forgiveness, and has broken its strength with the power of His redemption. God offers to take away our sin and the only reasonable course is to accept His offer. We cannot explain the whole paradox of life, and just how God takes away our sin and the reason of it all is not clearly understood by us; but this Gospel does not tell us all we need to know. It tells us of the dread reality of sin, and in the end, it tells us of the equal reality of pardon and forgiveness—it tells of the irresistible power of love that conquers all. We needn't argue about it, for we will only get lost in a multitude of words we needn't try to understand it completely, for we will soon find ourselves beyond our depth. All we need to do is to accept. That is the reasonable thing to do. And divine forgiveness through the Cross of Christ will come to us. Though our sins be as scarlet, they shall be as white as snow; though they be red like crimson, they shall be as wool. Thank God that there is power in the Cross of Christ to save & cleanse us from all sin" extract from a recent sermon.

WORLD HAPPENINGS
BRIEFLY TOLD

Hon. Irene Paribay has been sworn in as minister without portfolio in the Reid government.

The Soviet Union has named M. Ostrovski as its minister to Roumania. Recognition of the Soviet by Roumania came a few weeks ago.

A gold rush has developed north of Grand Marais, Minn., in Ontario, where a vein has been struck which has yielded \$17,500 worth of the precious metal to the ton.

In accordance with a wish expressed in his will, only six words appear on the tomb of President von Hindenburg. They are: "Paul von Hindenburg, 1847 to 1934."

Old King Winter opened his 1934 assault on Aug. 14 at Horapayne, Ont., when a high north wind brought with it intermittent snow flurries, at a temperature of 40 degrees above zero.

China exacted retribution for the murder of Dr. J. H. Ingram, 57-year-old American missionary, by handbills two months ago, when the provincial government executed five Chinese convicted of the crime.

The first studio in India for production of sound pictures has been opened at Calcutta. American equipment that can be moved about for production of news reels is being used.

Demand for denunciation of the Washington naval treaty before December 31, 1934, was voiced by high Japanese naval officials, including Minister of the Navy Admiral Osumi, according to reports received from Tokyo.

Premier Mitchell F. Hepburn, of Ontario, renewed his demands for monetary reform before a meeting in honor of Hon. Dr. Leonard J. Simpson, minister of education, and declared Australia had practically settled her economic problems, so Canada could do the same.

Little Journeys In Science

AMMONIA

(By Gordon H. Guest, M.A.)

Ammonia is a colorless gas which has a characteristic, pungent, powerful odor. It is about one-half as heavy as air and is very soluble in water. Ammonia gas is easily changed to a liquid. At ordinary temperatures a pressure of about 66 pounds per square inch is sufficient to liquefy the gas.

Ammonia will neither support combustion nor burn in air. Although inactive when dry, ammonia will, in the presence of a small amount of moisture, react with acids to form substances known by the chemist as ammonium salts. For example, on mixing the fumes of hydrochloric acid, which is known commercially as muriatic acid, with ammonia a heavy white cloud of ammonium chloride is formed.

Liquid ammonia is used very extensively in making artificial ice and in producing the low temperature required in cold storage plants. This use of ammonia depends on the fact that it can easily be liquefied at ordinary temperatures by applying pressure. When the pressure is released the liquid ammonia evaporates, absorbing a great deal of heat from the surroundings. This evaporation usually takes place in pipes surrounded by a solution of salt which is not easily frozen. This cooled salt solution may be piped to a cold-storage room, or cans of fresh water may be immersed in it to produce ice.

Ammonia gas is very soluble in water and is therefore usually sold in water solution under the name of "aqueous ammonia," which is used as a cleanser both in the home and in the industries. Large quantities of ammonia are used in the manufacture of fertilizers, and in making ammonium compounds such as smelling salts.

The range of the total weekly wages, including cash and allowances, of married ploughmen in the various divisions of Scotland is as follows: In the southern counties, from \$7.84 to \$9.30. In the lower Clyde valley, \$8.84 to \$9.48; in the remainder of the central area, \$7.98 to \$10.30; and in the northern and northeastern counties, \$6.74 to \$7.58. In Scotland as a whole, a single ploughman's weekly wages is \$6.74.

Scottish Journal of Agriculture.

New mine cages, built of aluminum, enable men to descend 1,500 feet deeper than formerly; the new cages are 40 per cent lighter than old types.

Atlantic salmon, unlike those of the Pacific, do not die after spawning.

Owing to heavy losses during storage and transit of Australian pears to the United Kingdom, the Australian government has under consideration a plan to provide for the ripening of pears on arrival in Great Britain. This would be a practice similar to that adopted for bananas which are shipped green and ripened on arrival.

W. N. U. 2060

Not What They Seem

Many Things Have No Association With Their Name

Cork legs are not made of cork. They are made of wood, metal, leather, or strong canvas; they were invented by Dr. Cork. Hackney coaches are not so called because they were first made in Hackney, London. The word comes from the French "Haquene," meaning an ambling horse. Brier pipes are not made from the roots of the sweet briar. The name is derived from the French "Bruyere," meaning heath. Dark blue and light blue are not the colors of the Universities of Oxford and Cambridge respectively. A university has no colors. But members are entitled to wear the university badge. Dark blue and light blue are the colors of the athletic clubs of Oxford and Cambridge. A laughing jackass is not an animal; it is a bird. Cinderella did not wear a glass slipper. She wore a fur slipper, but the original French words were "Pantoufle en vair," and the sound was mistaken for "Pantoufle en verre"; thus "fur" was changed to "glass."

Christmas Seal Campaign

A.C.T. To Aid Saskatchewan Anti-Tuberculosis League In

Worthy Effort.

The Associated Canadian Travelers, with a membership of close to five hundred, and clubs in five of the leading cities of the province, have joined forces with the Christmas Seal Sale committee of the Saskatchewan Anti-Tuberculosis League and their entire membership for two months this fall will boost the sale of sheets of these cheerful little stickers, the revenue from which is applied to such gratifying results in the prevention of the spread of tuberculosis in Saskatchewan.

This alert organization, being desirous of associating itself with some humanitarian cause in which every member could actively participate, is determined to make this effort a real success. Its membership in five of the leading cities of the province have wholeheartedly signified their approval of the Christmas Seal Sale as a major activity, and on September 1st will initiate a campaign that is designed to enlist the support of the entire business community of the province.

While the generous manner in which wholesalers and retailers have supported the Christmas Seal Sale in the past is fully realized and appreciated it is also felt that the response would be much greater if the purpose of the sale was fully understood and that a larger group of whom would be reached by a canvass such as the Associated Canadian Travelers have volunteered to make. Personal contact means a great deal in any effort and this will be provided by the A.C.T. members, each of whom will be supplied with a pamphlet giving full information regarding the work of the Saskatchewan Anti-Tuberculosis League and the all-important preventive work that is made possible by the sale of Christmas Seals.

The information contained in this pamphlet is of vital interest to every resident of Saskatchewan. Here are some of the facts in a nutshell: The tuberculosis death rate in Saskatchewan has been reduced 25 per cent in the past four years.

The cost of treatment in Saskatchewan sanatoria was \$200,000 less in 1934 than in 1930.

Since preventive work was commenced in 1928, a total of 29,873 persons have been examined at the expense of the Christmas Seal Preventive Fund.

Proceeds from the sale of Christmas Seals provides the funds for preventive work. This disclosure came in their early stages, making recovery more certain and reducing the period of treatment and the cost to the taxpayers.

The money raised by taxes for the maintenance of the three Saskatchewan Sanatoria is for treatment only; the money for preventive work is raised by the sale of Christmas Seals.

Prevention of tuberculosis and the protection of the well from infection is equally as important in the fight against tuberculosis as the care of those suffering from the disease.

During 1933 there were three hundred deaths from tuberculosis in Saskatchewan. During the past six years one-third of all deaths from infectious diseases in this province have been due to tuberculosis. It is now the most fatal of all infectious diseases.

The education of everyone regarding the control of tuberculosis. The provision of clinics for the examination of all persons having symptoms of tuberculosis who are suspected by their family doctors of tuberculosis. Among 7,239 persons suspected and referred by physicians to clinics, sanatoria and consultants during the past four years 898 active cases were discovered.

The sale of Christmas Seals is a beneficence which appeals to everyone who desires to support a humanitarian cause and through the efforts of the members of the A.C.T. a great many more people will this year be afforded an opportunity of contributing thereto.

Survey Of Accidents

Record Shows 22 Is Dangerous Age

For Motor Driving

The dangerous age for automobile drivers is 22.

This is the information contained in a statement issued by the governor's committee on street and highway safety following a three-year study of automobile accidents in Massachusetts.

"Of all operators licensed, approximately one-seventh are 22 years of age or under. Of operators involved in fatal accidents, about one-quarter are 22 or under," according to the highways committee's statement.

"In proportion to the smaller size of this group," the committee's statement reads, "its accident record is enough worse than the performance of the older class to warrant special attention."

Were Good Spellers

Secretary And Teacher Defeated All Others In Match

A spelling bee was won in New York by two women who were victors in the annual Town Hall Club spelling bee. One, a private secretary, and the other, a school teacher, defeated a university professor, an editor, a foreign correspondent and a dozen others. They were Miss Lou Helmut, the teacher, who won the first of the two sections by spelling "polyphony" and "plagiarism," and Miss Etna Kelley, the private secretary, who won on "neorophagus."

QUALITY unsurpassed VALUE unequalled.

By MANLEY F. MINER
Son of Jack Miner, Canadian Naturalist

While walking quietly through an evergreen grove recently my attention was drawn to the fact that the trees had grown tall and rank, and the same as the tree does, limb by limb as it misses the light.

After having this thought come to me, as I was alone with Nature, walking through this grove, I went home, and as I love to play my violin, picked it up only to find it out of tune. Like all other string instruments they get quickly out of

Jack Miner and Rev. W. A. "Billy" Sunday, the Evangelist. Photo taken on a recent visit of the famed naturalist to Jack Miner's home.

that these limbs and lower branches were not getting light. Light that everything needs. Thus, without light these lower shoots from the trees were dying off by one because of the plan is that anything that lives must have light and heavenly food continually, or else they die and perish. And as I looked I thought of how this same example could apply to humanity. If we don't accept God and keep in tune with the infinite God, Nature, or whatever you have a mind to term it, we soon die.

Luminous Human Body

Story Comes From Greece Of Strange Freak Of Nature

Another luminous human body engendering scientific attention occupied columns in the Athenian press, recently.

Anastasiou Economos, a mailman at Saloniki, is the subject of this second recent discovery. In Italy recently a woman whose body was seen to give light while she slept was placed under observation in Rome. But she failed to respond.

Economos' body was said to give out sufficient rays to light a dark room.

Had Good Reason

"Yes, it is really remarkable," observed mother at the head of the table, "Clifford seems to eat twice as much chicken when we have visitors."

"Indeed!" exclaimed the lady visitor. "And, pray, why is that, Clifford?"

"Cause that's the only time we have it!" replied the truthful lad.

Since becoming an independent state in 1831, Belgium has had but four kings.

Of late years in Scotland, the spread of bracken, particularly in the west, has reached such dimensions that it has become a serious menace to hill farming.

The grebe can fly through or under water as well as it can in the air.

Tarnish can be cleaned from copper and brass by using buttermilk.

SUNDAY SCHOOL LESSON

AUGUST 26

HOSEA PREACHES GOD'S LOVE

Golden Text: "For God so loved the world, that he gave his only begotten Son, that whosoever believeth on Him should not perish, but have eternal life." John 3:16.

Lesson: Hosea, Chapters 6, 11, 14.

Devotional Reading: Psalm 36: 5-10.

Explanations And Comments

Jehovah's Love for Israel, 11:1-4.

"When Israel was a child," in the beginning of its natural existence, "then I loved him, and called my son out of Egypt." Called him, locally, into the land of Canaan, and morally, to set an example of true religion (Cheyne).

"Hosea dwells on that beautiful poet, half in melancholy reflection on the contrast, and half in persuasive pleading that the old relations between the nation and their God may be restored. The early days in Egypt and the Desert were a history of grace on the part of God. The prophet stops his message of doom to recall lovingly the early periods of Israel's national existence, and sees God's love claiming them, and meeting with it response (Black).

The Prophet's Entreaty, 14:1-3.

Hosea entreats the people of Israel to return to the Lord, and bids them offer this penitent prayer: "Take away all our iniquity and accept what in us is good; instead of burnt-offerings (bulls) we offer thee our prayers (the offering of our lips). We will no longer trust in Assyria nor in Egypt, nor in idols, the work of our hands, but in thee alone, helper of the fatherless."

Assurance of Divine Mercy and Loving-kindness, 14:4-8.

To this penitent prayer the Lord will respond: "I will heal their backsliding, I will love them freely. See Hosea 2:19. The prophet stops his message of doom to recall lovingly the early periods of Israel's national existence, and sees God's love claiming them, and meeting with it response (Black).

The dew is often used metaphorically for spiritual blessing. Dew falls on vegetation and revives it and causes it to grow; but it does not fall on barren rocks where it would be of no avail. The Lord is as the dew to human souls.

Western Musical Development

Easterners Has Kind Words To Say Of Progress Made

Leo Smith, noted Canadian musician, who has just returned to Toronto from a Western Canadian tour, declared that "a visit to the west is an education." He said music endor in the west was already "productive of surprisingly good results."

"I will be as the dew unto Israel!" The dew is often used metaphorically for spiritual blessing. Dew falls on vegetation and revives it and causes it to grow; but it does not fall on barren rocks where it would be of no avail. The Lord is as the dew to human souls.

The results seemed to show a keener vitality, even at times a spontaneity, which, to my way of thinking, rather overshadowed performance of corresponding grades in the east," Mr. Smith said.

Helen-Did you ever think seriously marrying?

Tony-Of course I did. So I didn't!

The blood in a persons 80 years old has travelled about 5,000,000 miles.

HOW TO KEEP COOL

Take an effervescent glass of pleasant-tasting Andrew Liver, which really begins to feel the heat. At once you will feel cooler—and you'll stay cooler. Andrew not only quenches thirst, but cools your blood. Drink occasionally—say twice each week—Andrew will keep you fit by purifying your system, insuring regular and complete elimination. OCCASIONAL WIFE

By EDNA ROSS WEBSTER
Author of "Joretta," "Lipstick Girl," etc.

SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, are suddenly deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling artist trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter, Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarrelled. After a party at an exclusive club, where the rest of the members of the party go to a cabaret to continue the gaiety, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avis and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Camilla urges Peter to accept some of her earnings to help him along, but Peter refuses and they quarrel. After Camilla has gone to her room, Peter suggests "Eager Youth" and Avis "Inspiration." Peter adopts the latter title and Camilla, heartless, goes to Peter's studio for quiet and to think. Peter and Avis follow later, and as the lights are turned on, see the status has been altered. Peter accuses Camilla of doing this, and Camilla, stunned by the disaster, and hurt and horrified by the accusation, faints.

At Camilla's suggestion, Peter enters as his exhibit and she had sculptured especially for her as a wedding gift. They named it "Land of Hope." Camilla's advertising campaign and Tiny Tote broadcast was a great success, and Mr. Hoyt expressed his pleasure and surprise on learning that Camilla was the author and artist who was so ably stimulating business for his company. Peter's exhibit was awarded the Paris scholarship, and he prepares for his journey to France. Camilla's ship's departure from New York, he is on his way to his cabin when he meets Avis Werth.

(Now Go On With The Story)

CHAPTER XVII.

Before Peter could recover from his surprise enough to speak, Avis smiled serenely and exclaimed, "Surprise, Peter!"

"Well, hello," he replied with a note of consternation in his voice. "You do have a habit of appearing at the most unexpected times and places."

"And aren't you glad to see me?" she asked in a hurt voice.

"Why, of course," he was rallying to the exigency of the moment. "As a matter of fact, I was just now headed for my cabin and wondering what I was going to do with myself on this slow-going craft for a whole week. But why in the world are you travelling on a tub like this?"

"To see that you are not lonely," she replied coyly.

"That is most considerate of you," he offered gallantly.

"Oh, but I had a selfish reason, also. I didn't want to be lonely on another boat, you see. A week with a good travelling companion can be much shorter than five days alone."

"But I didn't know you had planned to go to Europe, now?"

"Neither did I until two days ago, and you were so busy with your own affairs that I just decided to make it a little surprise to you."

"No doubt about the surprise," he

MATURITY—MATERNITY

MIDDLE AGE

At these three critical periods a woman needs a medicine she can depend on. That's why so many take Lydia E. Pinkham's Vegetable Compound. 98 out of 100 say, "It helps me!" Let it help you, too.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

W. N. U. 2060

admitted. "What's your destination—Paris?"

"Oh, yes. Always Paris. I travel here and there about the continent when I am over there, but Paris is always home to me. You are still wondering why I am going. It happened this way. I was talking with Professor Drake the other day and he said that in his opinion my talent lies in portrait work, and that the very best thing I could do was to study with Monsieur Boule in Paris at once, and then hit upon the idea of taking the same boat with you, just for the fun of it. If I get over there and discover that I am not prepared to stay indefinitely, I'll take a fast boat back and start all over."

"How convenient! It is to have money!" he sighed, smiling.

"You'll be like that some day," she said confidently. "But there is no sense in our standing here like this. I must see that Tille gets us settled this afternoon, and then for a long, pleasant, luxurious week. Do you like the water?"

"I think I do," Peter grinned, "but I've never before been out where it is so deep even as this."

"She turned away, then hesitated. 'Shall I arrange with the dining room steward to put us at the same table?'"

"Why, of course. No sense in two good friends, stranded at sea on the same boat, sitting at different tables and wishing for congenial company."

Or wait, I'll arrange for myself," he suggested on second thought. It would look better for Avis if he sought her companionship, via tip to the steward.

"Fine!" Avis agreed, and reflected that it might be clever to arrange for the information to reach Camilla that Peter had bribed a dining room steward for a table with her. One could not imagine a man falling more neatly into her plans than Peter had from the beginning. True, it was a slow and tedious campaign, but worth the time and patience. "See you at dinner, then," she left him gayly.

For two days' notice, Avis' trunk contained a surprising collection of stunning clothes which she had bought for a definite purpose. She might have been on her honeymoon, so alluring she made herself for every day and every occasion of that voyage.

By the third day, it seemed quite natural to them to face each other across the breakfast table, with deck games, contract bridge in the salon, dancing in the evenings or just sitting idly side by side in their deck chairs in the calm, indolent hours between calls.

Peter was seized by a spell of inertia, so easily developed aboard a steamer, and following the strain of busy days over many months—years, in fact. It was the first time he had relaxed from anxiety and work for as long as he could remember. It was so blissful to stroll idly around or lie in a deck chair with eyes closed and caressed by the warm salt breeze, to dream without doing and to plan without action. Avis had surprised him of the wisdom of such a week of idleness. On the second day out, he had protested when she proposed a set of deck tennis.

"But I should be working, Avis. I expected to get a lot of extra things done this week."

"Aren't you the bear for work, though? Now let me tell you what would be the sensible thing for you to do, Peter. Make this week a real vacation. Forget everything except rest and a good time and be ready to leap into Paris in full swing with new ambition. You certainly deserve one week away from your work, while at the same time it would do you a vast amount of good. You must learn to play a little." She was so anxiously concerned for his well-being that he felt a responsive desire to humor her wishes, even while he acknowledged that she probably was right about it.

It was that receptive mood induced by his complete resignation to idleness and pleasure into which Avis subtly sowed her seeds of intrigue that sprouted and flourished into a lusty romance which promised to bud and blossom.

By the third day, Camilla and America seemed vague and remote as time and space; and Peter was luxuriating in the charm of Avis' gentle flattery, the pleasure of her gay, irresponsible manner, so different from Camilla's harrising confinement to work and ambition and obligation.

Avis captivated him in this period of lassitude and pleasure as she never had done in the atmosphere of work and ambition at the studio. She was part of this life which had seemed so unattainable to him, and she made him feel that he had only to reach out his hand and grasp it. And although the Belgrade was not the epitome of luxury and service

to which she was accustomed, it seemed magnificent to Peter who had had so little ease and beauty in his life.

If Camilla's ambition had inspired him and provided him confidence, Avis' holiday mood stimulated his desire to follow the path of the shortest route, to forfeit an ounce of proud struggle for a pound of easy victory. It wasn't so much her words and actions, as her manner and the way her very thoughts vitified him to her viewpoint.

There was also a full golden moon in conspiracy with wind-blown, dimly-lighted decks, in her favor. Sitting side by side, smuggled into steamer rugs, with the vastness of the heaving sea stretching about them in all directions, he realized the insignificance of man, of the futility of waiting for life while life passed by; talking in intimate tones while the silver sheen of the moonlight and the eerie sound of the waves against the hull of the boat turned it all into a world of make-believe. Prosaic life lost its proportions of importance. It was a mood in which man tells himself that this moment, this hour, is his to do with which he will. Why wait for that which never may be, and remember that which is lost to time forever? The lure of the present is sweetly intoxicating as one partakes of more and more.

(To Be Continued)

Flying Under Difficulties

Imperial Airways Maintain Service Over Dead Sea Area

The difficulties of flying over wild areas are appreciated by H. K. Hales, Conservative M.P. for Hanley in Great Britain. He is an experienced traveler by air and he pays this comment:

"I would like at this juncture to express my admiration for the marvelous organization which is shown by Imperial Airways Limited. They may be slow but they are sure. I think I am right in saying that there were not more than two occasions when we did not arrive at our destination on time, a thing which I greatly appreciate."

"You have to remember also that the organization of the ground forces and equipment is a great problem. In Penang they have got yet got the aerodrome in order. The ground has just been laid out and levelled. "And we must not forget the difficulties with the Persian government, which have necessitated us flying down the coast of Arabia instead of Persia and have made it necessary to cover some 200 extra miles."

"Flying over the Dead Sea with a strong adverse wind, we were obliged to make a desperate tract of coast to pick up petrol out of a tank placed there to meet such an emergency. That is another little instance of how the unexpected may happen at any moment with a full load of passengers. Freight for which allowances must be made, and everything done to keep the service up to time."

"Of all places in the world the vicinity of the Dead Sea is not the spot to pick for a forced landing. It is a hot, dry, valley, and although Jericho is only a few miles away, there is nothing there but a few Arab huts.—Border Cities Star.

Origin Still Uncertain

No One Really Knows First Significance Of Swastika

Some scholars believe the Swastika is merely a decorative or ornamental design, having evolved from the lotus petal pattern used in early architecture. Some say it was merely a talisman or charm, to be worked in precious metals and worn as amulet or pendant. As a mystic symbol, it is said to have been associated through the ages with fire, water, wind and rain. There are archaeologists who hold that its four points, or feet, indicate the four cardinal points of the compass. It has been interpreted as representing a flame of sacred fire, a sun in its daily rotation and a flash of lightning. Much speculation followed its adoption as the national emblem of the German National party several years ago and many articles were written about it. However, its real origin and first significance are still uncertain. The final word on the swastika comes from the curator of archaeology of Smithsonian Institution. "It is the earliest known symbol or form of the cross and is undoubtedly prehistoric. The name is Sanskrit, but the symbol itself existed long before it even had a name."

Any bag, sack, box, barrel, keg, bottle, carton or other container of make whatever (including make-up) which is imported into the United Kingdom is required by a new order to be conspicuously marked with the name of the country of origin.

HOLDS FALSE TEETH TIGHT AS CEMENT

Plates can't possibly slip when you prinkle on Dr. Wernat's Powder. Largest sale in world—holds plates so tight they can't wobble any more. Comfortable when actually worn. Holds plates in place. Keeps mouth sanitary, breath pleasant—special comfort-cushion prevents sore spots from getting sore. Small cost—any drugstore.

Movies For Schools

Series Of Educational Films To Be Used In England

Completion of the first seven of a series of educational films intended to be shown in schools throughout England was revealed at a preview in London before an audience of distinguished educators.

The pictures, two and three reels in length, were made under the direction of well-known authorities in various educational lines and explanatory dialogue was provided by these experts. In schools where the auditoriums or classrooms cannot be wired for sound, special explanatory visual titles will be provided, it was explained.

The first seven films completed, which were shown to the educationists at the preview, were: "This Thing," a complete photographic record of the growth of this plant; "Kitchen Enchant," production of which was supervised by experts from the National School of Cookery; "Breathin' Cullis," edited by Professor Winifred Cullis, of the London School of Medicine for Women; "Wheatlands," edited by Miss Mary Field; "French," the first foreign-language educational film to be produced; "Roots," depicting the action of sensitive plant root tips in avoiding obstacles; and "Starchpotato," first of series designed to provide a background against which famous men of literature and their ideas may be presented.

To Safeguard Drivers

Authorities May Stop Unofficial Test-Driving Of Racing Cars

Now that the trial of Kaye Don has ended, it is stated in British racing circles that the authorities will decide to prohibit the use of racing cars and racing motorcycles on the roads out of official practice hours.

Kaye Don was sentenced by Deemster Farrant to four months' imprisonment for the manslaughter of his mechanic, Francis Taylor, while practising out of official hours for a car race.

An appeal was lodged, and after being in custody for a few hours Kaye Don was released on bail.

The authorities for many years have given a great deal of latitude to the drivers and riders from all parts of the world who come over to take part in the races.

For both the long-standing motorcycle races and the car races of the past two years there are official practice races, for which the roads are closed. In addition, a tradition has grown up that any driver or rider who wished to make additional trials could do so without any risk of serious consequences.

Defines An Actor

"Dad, what is an actor?" "An actor? My son, an actor is a man who can walk to the side of a stage, peer into the wings filled with theatrical props, dirt and dust, other actors, stagehands, old clothes, and other clap-trap, and say, 'What a lovely view there is from this window!'"

Before egg-grading was introduced into Canada in 1923 by the Dominion Department of Agriculture, the yearly consumption of eggs per head of the population was 17 dozen. Now it is 28 dozen.

Can Recommend Canada

Earl Of Chichester Thinks It Fine For Young People

The Earl of Chichester, who sailed to England after spending seven months in the office of Sir William Clark, British High Commissioner, in Ottawa, summed up his views of Canada before he sailed, as follows: "If I were asked by a young man just out of school, I should certainly recommend Canada, but I should also point out that he would have to work hard. Canada is undoubtedly a country for a young man, but he'll have to work."

If built today, ancient Roman highways, such as the Appian Way, would cost six times as much as modern improved highways.

Even the woodpecker owes his success to the fact that he uses his head.

New White Star Liner

To Be Fitted With The World's Largest Ship's Propeller

The world's largest ship's propeller has left London for Clydebank. This propeller was the first of four specially designed for Number 534 and it was shipped by the steamer "Copeland" to the Clyde where it will be fitted to the liner.

With an approximate weight of 35 tons and a spread of nearly 20 feet from tip to tip of its Manganese Bronze Blades, its shipment occasioned a great deal of ingenuity and skill. Carefully wrapped in a protective covering of sheet iron and canvas it was hoisted on board the "Copeland" by the "Hercules," one of the largest and most powerful cranes used by the Port of London authority.

Before the propeller reaches the Clyde it will make a sea journey of nearly 600 miles. To ensure that the propellers will reach the shipyard in absolute safety, they are being shipped one at a time.

A start has been made at Clydebank in painting the hull of Number 534 for the launching ceremony. When the tens of thousands of spectators assemble at Clydebank to witness the launch they will see that the huge bulk of the ship presents a glittering appearance of light grey and red. The upper part of the hull will be a light grey, whilst the undersea part will be red. Dividing the two will run the white "waterline" of the great vessel.

Scores of painters will be engaged in this task during the coming week, and many thousands of gallons of paint will be used in completing this striking transformation.

THE RHYMING OPTIMIST

By Aline Michaelis

KEY TO DREAMS

The keys on my ring are of little worth. Leading to things well known; But here in my hand I hold a key Found on a paving stone.

Somewhat small for a gate, yet large for a door.

Too long for a sailor's box; I turn it in my palm again And wonder what it unlocks.

No symbol of all I have seen on earth Is as potent as this to me. And I have no words for the strange allure Which lies in the unknown key.

Perhaps it might lead to a garden-plot. A hidden and lovely place; It might open a door in a foreign land And show me a dreamed-of face.

And never, as long as I can clasp Closely this time-stained key, Will the gates of romance again be closed. Or the door of dreams for me!

Uncover Roman Theatre

Walls Slowly Emerging From Ground In St. Albans, England

So many people are flocking to St. Albans, England, the Roman Verulamium, hoping to see the Roman theatre whose walls are slowly emerging from the ground that Lord Verulam, in charge of the excavations, has given orders to admit the public to the area every day between certain hours. All archaeologists agree that this theatre is the only example of its kind at present known in Britain. It follows the normal classical plan and possesses an oblong stage and a semi-circular auditorium, approached by staircases. The spade thus far has revealed nearly one-half of the theatre. From its proportions it is apparent that in its day it would have seated between 1,500 and 2,000 playgoers. The building appears to date from the second century A.D.

Can Recommend Canada

Earl Of Chichester Thinks It Fine For Young People

The Earl of Chichester, who sailed to England after spending seven months in the office of Sir William Clark, British High Commissioner, in Ottawa, summed up his views of Canada before he sailed, as follows: "If I were asked by a young man just out of school, I should certainly recommend Canada, but I should also point out that he would have to work hard. Canada is undoubtedly a country for a young man, but he'll have to work."

If built today, ancient Roman highways, such as the Appian Way, would cost six times as much as modern improved highways.

UPSET STOMACH Relieved!

Often in hot weather and occasionally at other times, little stomachs turn sour and said. "When I notice any sign of sick stomach," says Mrs. J. Alcockson, Denver, Colorado, "I always give a Baby's Own Tablets. They quickly and pleasantly get my baby's stomach and quite safe. All common ailments are promptly relieved with Baby's Own Tablets. See a pediatrician or drug store."

BABY'S OWN TABLETS

Little Helps For This Week

"I form the light and create darkness; I make peace and create evil; I the Lord do these things." Isaiah 45:7.

"All is God that is, and is to be; And God is good." Let this suffice us still. Resting in His great end, He will. Who moves to His last great end, unswayed by the ill.

J. G. Whittier.

This then is of faith, that everything which touches us in mind, body or estate, whether brought about by this outward senseless nature or by the inward senseless nature or by the will of man, good or bad, is overruled to each of us by the all-wise and all-loving will of God. Whatever befalls us, however it befalls us, we must receive as the will of God. If it is through man's negligence, or ill-will, or anger, still it is to us in the very least circumstance the will of God. For if the least thing could happen to us without God's permission it would be something out of God's control. His providence and love would not be what they are. Almighty as high as will would not be the same God, not the God we believe, adore and love.—E. B. Pusey.

Novel Heating System

Specialty-Treated Wallpaper Is Invention Of London Scientist

Heating system of novel design has been invented by a London scientist—working on the principle that the human body is always radiating heat to colder objects. He has invented a system which will raise the temperature of any room as high as that needed for human well-being. This will be done by specialty-treated wallpaper connected to the electrical system.

At the Bee Division, Central Experimental Farm, Ottawa, it has been found that at least two months are required to lay the foundation of next year's honey crop by building up after August 1 a force of young bees capable of withstanding the rigours of the coming winter in a satisfactory manner.

Boy babies predominate in hard times, while girls lead in times of plenty, according to Professor Joseph, noted Vienna biologist.

EDITORIAL

RACKETEERS AND VICTIMS

In a fearless and vigorous editorial, C. A. Hayden writing in the Country Life of B.C., comments on the big shots of Canada business.

Canadians have prided themselves on their square dealing but the practices which have been revealed by the Stevens committee have nauseated our people.

Canada's financial, commercial and industrial 'leaders' are not dissimilar to the "Big Shots" of the United States. Across the line, the racketeers have scientized their infamous practices. In Canada there has been too much sanctification of practices that are equally evil but that are cloaked with the mantle of legality or near-legality.

Over there robbery is committed at the point of the gun. Over there robbery is committed through mass buying, chain store intimidation, starvation wages and phonetic or synthetic advertising.

It is depressing to note how the untrammeled press of Canada, the great so-called independent papers, avowedly published to express the people's views and printed "in the people's interests," preserve a discreet, instructed science regarding the betrayal of their subscribers. If the primary producers or the labor unions were to "pull the rough stuff" that has been exposed by the Stevens committee, every big daily in the country would be horrified whereas at the moment they are only stultified.

"The Big Time editors grossly under-rate the intelligence and the perspicacity of the people of Canada. But their worst blunder lies in their philosophy which fools their readers. They would re-organize all their processes of thinking were they to take two months every year and mix incognito with their fellow-Canadians.

Let a Canadian editor of the Big Time take one-sixth of his working life and mingle with the unemployed, work in relief camps, tramp the dusty roads toting a "bundle," ride the freights, labor in the harvest fields or in the orchards, wash gravel for gold, test the vicissitudes of the out-of-works and experience the sensation of a gnawing stomach—let an editor really go through life as it is being lived in Canada today by more than a million men, young, middle-aged and old, and then Canada will read editorials that will mean something.

RESTRICTIONS NOW UNNECESSARY

The fates have decided against a big crop of wheat in western Canada this year consequently the plans developed by the prairie provinces to handle a big crop have gone into discard. While the drought and smaller crop is regrettable, the governments must feel relieved that they will not be called upon to handle the harvest on a quota basis.

In fact the international wheat agreement, which was entered into almost a year ago, has likewise pretty well fallen to pieces. The agreement was drawn up to meet a desperate situation and its usefulness ends when that situation appears in the way of righting itself. The end of the international agreement is in sight. Its short life has demonstrated the difficulty of getting nations to keep a solemn and binding (?) agreement.

As far as organizing the disposal of wheat in Western Canada on a quota basis is concerned, this newspaper has always rather doubted the feasibility of the plan. It looks to be cumbersome and unworkable. The farmers of this province certainly would not take kindly to any such a regimenting scheme. They have never had any interference with deliveries and would surely resent such regulations. So on the whole it is just as well for all concerned that the legislation is not required although we would have preferred a bumper crop.—Hanna Herald.

Minutes of Council Meeting Mun. Dist. Battle Coulee

Council meeting was held in Saulteaux School all the members present and Reeve Phassey presiding. Secretary read the minutes of July 14th meeting, which were approved on read on motion of Cr. Hetherington.

Representatives of the C.P.R. were in attendance and having waived their right of notice of date of meeting of the Court of Revision for Wild Land complaints they asked that their complaints be heard this day. Cr. Hills moved and carried that complaints be heard as requested.

The parcels were considered by sections and where complaint was allowed, it was considered by the Council that the Land would not pasture stock as outlined in Subsection "b)" of Section 4 of Wild Lands Tax Act. The lands and result of complaint were as follows:

NW 14.9.7.4. Disallowed; All 1, disallowed; All 5 disallowed; NE 7, Allowed; All 9 Disallowed; All 19, Disallowed; E 1/4 & NW 15, Disallowed; All 17, disallowed; S 1/4 19, disallowed; All 21, disallowed; S 1/4 & NW 23, disallowed; All 27, allowed; SW 1/4 31 disallowed; S 1/4 33 allowed; S 1/4 35, allowed; All 14.9.8.4, allowed; E 1/4 3, disallowed; W 1/4 5, allowed; E 1/4 9, allowed; All 14.9.9.4, allowed; W 1/4 7, allowed; E 1/4 9, allowed; W 1/4 15, disallowed; E 1/4 19, allowed; E 1/4 25, disallowed; NE allowed; All 5.4.9.4.4, disallowed; All 7, disallowed; NW 9, disallowed; S E 13, disallowed; All 17, disallowed; W 1/4 19, disallowed; SE 25, allowed; E 1/4 27, disallowed; SW 31, disallowed; N 1/4 31, disallowed; NE 1 disallowed; SE 34.7.9.4, disallowed; NE 3 allowed; N 1/4 5, allowed; S 1/4 5, disallowed; W 1/4 5, SE 7, disallowed; NE 7, allowed; All 9, disallowed; W 1/4 17, disallowed; All 19, disallowed; All 21, disallowed; All 27, disallowed; S 1/4 & NW 31, disallowed; All 33, disallowed; NW 35, disallowed; SW 34.9.4.4, disallowed; NW 3, allowed; E 1/4 & NW 5, disallowed; All 7, disallowed; All 9, disallowed; SE 13, Allowed (old); S 1/4 15, allowed; NW 15, disallowed; All 17, disallowed; E 1/4 19, disallowed; SW 21 Allowed (old); N 1/4 23, allowed; S W 25, allowed (old); NE 25, disallowed; NE 27, disallowed; All 31, disallowed; NE 33, disallowed; NE 35, disallowed; SE 35, allowed.

Cr. Ramsey moved and carried that above decision be confirmed, district.

Cr. Hills moved and carried that "This Council go on record as being opposed to the imposition of any Wild Lands Tax."

Cr. Ramsey carried "That this Council does here express the opinion that an injustice must be done to any taxpayer who is compelled to pay Wild Lands Tax in this district when the existing conditions make sale and settlement of vacant land impossible."

Mr. P. Reid attended and applied for Consolidation of Taxes on the E 1/4 31.4.9.7.4. It was agreed by the Council that he be given 30 days in which to pay \$22.50 in cash, when an agreement would be given. If this amount not paid seizure is to be made.

Cr. Curry carried that relief order for \$12.00 for August be issued to Mrs. Agnes Baldwin and one for \$11.00 to T. G. Uphall.

A letter was read from the D.M.A. regarding the approval of sale of 6 quarters of land. Offers to purchase 2 other quarters were also submitted when Cr. Hetherington carried that matter be tabled pending further investigation.

Hospital notices for the month were read.

Monthly statement for July was also read and the Reeve signed same.

Secretary read correspondence with the Vermilion banks re the opening of an account. Cr. Curry moved and carried that an account be opened in the Royal Bank and that the Deputy Reeve and Secretary be authorized to sign cheques and other documents in connection therewith.

Cr. Curry reported regarding sale from F. W. Hill pound on July 6th, that it was in order and carried that amount of \$8.40 pound taxes be paid to Mr. Hill.

Several applications for Consolidation were presented when Cr. Hills moved and carried that agreements be given when the current taxes and 10% of the arrears are paid, exclusive of payments made by the C.P.R.

Blaine brothers renewed their offer for the SE 1/4 14.8.9.4 and Council refused on motion of Cr. Dew.

Correspondence was read regarding Ambler's Lake. Cr. Hills carried that application for lease be made and fee of \$10.00 paid.

Cr. Hills moved and carried that a statement of Robt. Brown's account be sent to his sister, Mrs. W. J. Hawkins, of Strome, Alberta. Cr. Dew reported regarding sale of the balance of chattels and asked payment of expenses of \$2.00 to himself and \$2.00 mileage to secretary. Cr. Ramsey carried that same be paid.

An offer for \$200.00 was refused for the NW 14.8.9.4 on motion of Cr. Ramsey.

A letter was read from Mrs. D. Musselman, of Bihy, asking that seizure be made for taxes on the NE 4.4.7.9.4. Cr. Ramsey carried that seizure be made.

Also one from Dr. Knoll asking payment of \$7.50 for Diphtheria serum and also regarding Mr. Cohn who had an operation. Cr. Hetherington carried that secretary reply and pay the \$7.50.

Secretary to reply to Vermilion Standard and explain method of copying minutes and advise that they are at liberty to condense as they wish.

The Reeve reported having inspected the proposed diversion on the North side of the NE 22.4.8.9.4 at request of Cr. Hills. After doing so he had authorized the making of a survey and building of a road and Ramsey moved and carried that Reeves report be accepted and action approved. Cr. Hills moved and carried that \$10.00 per acre be offered as full compensation.

Further discussion took place regarding the collection of taxes by distraint. Cr. Dew moved and carried that the Secretary be bailiff for this purpose and that his remuneration be the same as that for the Councilors.

A letter was read from R. L. Rohrer, asking that interest on the balance of purchase price of the NW 32.4.7.9.4 be reduced to 5%. Cr. Ramsey carried that request be granted.

Permission was asked by the telephone committee to brace poles with guy wires. After some discussion, Cr. Dew carried that matter be tabled.

It was agreed that \$2.00 deposit for investigation and \$5.00 impoundment fee and \$12.50 poundage fees were to be paid when proper statement was sent in by poundkeeper in connection with impounding of a bull owned by J. F. Addison.

Notice of compensation paid to R. Shupe was read, when the secretary was instructed to take matter up with the Department as the Council are of the opinion that compensation is too small.

Cr. Hind wrote and asked that \$10.00, which was turned in as road work and applied on the NE 34.8.4.4, be returned to him in cash. Cr. Dew carried that request be not granted.

Cr. Hetherington carried that following minutes be paid:

Div. 1—K—1.293.50; I—1.208.30; M—1.78.50; N—1.197.00; Div. 2—C—2.208.00; D—2.197.75; E—2.880.70; F—2.246.00; G—2.170.75; H—2.194.00; I—2.175.00; J—2.40.50; Div. 4—C—3.192.50; F—3.36.00; G—3.4.75; Div. 4—F—4.152.00; G—4.23.00; H—4.210.35; I—4.21.90; Div. 5—F—5.121.00; G—5.86.00; H—6.107.75; I—5.56.13; J—5.123.00; K—5.166.00; L—5.166.50; M—5.61.15; N—5.25.00; Div. 6—F—6.181.50; G—6.181.50; H—6.45.00.

Cr. Hetherington carried that following bills be paid:

Religious or Irreligious--Which?

Rev. T. Edgar Armstrong, B.A., B.D.

Text: Hebrews 11:27. For he en-
dured as seeing Him who is invis-
ible.

The eleventh Chapter of Hebrews
contains a record of the names and
deeds of Israel's famous. Here are
listed men and women who through
faith achieved. Abel, Enoch, Noah,
Abraham, Sarah, Isaac, Jacob, Joseph,
Moses and an innumerable group, are
mentioned as attaining great suc-
cess. Their achievements were not
attributable to any material agency
but to the fact that they recognized
the unseen. They had confidence in
God. The words of our text are as-
sociated with Moses, and are given
as the reason for his deeds.

So often we forget that the un-
seen thing is the real and most val-
uable. We often think of the recog-
nition of form, clothing and shelter
as related to human well being but
the most important is the air we
breathe. It is unseen.

Immediately then we are brought
into the field of values. There are
values which are relative and values
which are absolute. Religion which
has to do with the quality of life,
has to do with values. I fear man/
people think of religion in terms of
quantity. We live on because of it.
Let us settle this right here. Religion
brings quality to life and be-
ing.

Now in relation to values the in-
dividual is both a subject and an
object. I am of value to other people,
say my family. To them I am an
object. I appraise other people and
material things. They are subjects to
me but I am 'the subject of their
values.'

When we speak of values we enter
two large fields. There are values
conditional; relative; and there are
values unconditional; absolute. For
example, I have some books in my
library which I prize highly. For
me they are rich in association and
information, but to someone else
they may have no such values. All
people are not interested in theology.
It is I that makes those books val-
uable. Their value is conditioned.
You may go into a second hand
store and buy an article at a reduced
price. It ceases to be of value to
the person who had it. For you it
may have great value. In this in-
stance the value is conditional by
the subject. Many factors enter into
determining values. The season, the
style, my necessity all enter into
conditional values.

But when we begin to think of
truth, honesty, purity, equity, justice
love, these are not conditioned. Their
value is not determined by any
one individual. They have a value
irrespective of people, time or
values.

Now we have given us our topics
Religious or Irreligious. We some-
times think of a great gulf between
these two positions. There is no
area known as "No Man's Land."
They lie side by side and the difficult
it is that while we are walking a-
long we step over. These are the
paths. We start in the path of the
religious and are amazed to find
ourselves in the irreligious path.
There is no barbed-wire fence be-
tween these paths.

I am religious when I follow un-
conditioned truth but I am irreligi-
ous when I live for conditioned
truth. How easy it is to shift from
one position to the other.

Let me illustrate. An innumerable
company of human beings are climb-
ing the Hill of Life. I am among
the crowd. I am on a great ad-
venture for my God. I am endur-
ing as seeing the Invisible. But let
my object of vision change. I am
looking upon those about me. Per-
haps some have not achieved as well
as I and I begin to be critical of the
achievement of others. Contentment
invites and I yield to certain expe-
riences. Don't you see what has
happened. I have lost sight of those
unconditioned values. The values I
now seek are only relative. I have
become irreligious judged by this text
Am I living for the unseen or the
seen?

I am afraid that many so called
religious people have become irreligi-
ous. Material expediencies play
too large a part in their lives.

People attempt something in the
name of truth. A call has come
and they endure as seeing Him who
is invisible. True it is difficult, but
worthy. The moment they allow
themselves to be influenced by what
others say, by conveniences, by gain,
by favor, they become irreligious.
They are motivated by the visible
rather than by the unseen.

The minister in the pulpit is sub-
jected to this subtle temptation as
well as the man in the pew.

On the occasion of his education
his conservation was full. He is re-

sponding to a Divine call and go-
ing out to occupy new territory for
God. He seeks to interpret God to
men. Hope and faith are in his
heart. But the moment promo-
tion, position enter in and he yields
to them you see what happens. He
passes from being governed by the
unseen to the control of visible
things.

It is no great leap, there is no
clanging of warning bells, just the
quiet gentle slipping, diverging from
the unconditional to the conditional.
Have not we all felt this very
temptation and been guilty of yield-
ing.

It was this situation that made
Bunyan say "I found a door to hell
by the side of the gate to Heaven."
The picture gallery of the Saints in
Israel is to inspire us. They lived
for unconditional truth. They en-
dured as seeing Him who is invis-
ible. Their conduct challenges us to simi-
lar action. Had men not believed
thus we would have no such illu-
rious characters with whom to be
associated. We may as well face
facts.

If this is the conduct which has
blessed the world, has made it moral
ly habitable, given to us our reli-
gious heritage we cannot sustain or
advance it with anything less. We
are challenged to follow them --
to contribute to retrogression.

The sailor gets his directions from
the Sun and North Star. He cannot
trust an object on the surface of the
water. Its position is shifting. So
men amid the transient things of
life have need of seeing the un-
changing God.

Let us look at some of the things
which they endured. Abel through
faith offered an acceptable sacrifice
to God. Enoch walked with God,
talked with God and no complete
was that, that God took him. Noah
withstood the jibes of men as he
prosecuted a task to which God had
called him. It took years to do it,
but still he persevered and through
his efforts he and his family were
saved from destruction by the flood.
Abraham went out to occupy a new
land for God. Moses identified
himself with the struggle of a
slave people. He might have lived
in palaces and wore purple robes
but upon them he turned his back,
preferring rather to endure afflic-
tion with the people of God. The
companying influence was the pres-
ence of the unseen. The records
tell of men being stoned, tormented,
afflicted, scourged, sawn, assailed,
but nothing could deter them from
following their unseen leader.

These are different days. What
is the need of the hour? How un-
numerous are the temptations and how
easily men give over and accept a
lower standard of life. All because
we are too much governed by rel-
ative values. We fear what some
people may say, we are interested in
that aspect of life or sport and feel
those who plan events should be sup-
ported. We are so concerned with
the material side and overlook the
fact that genuine religion involves
enduring or seeing Him who is in-
visible. In fact the men and women
we have done out-and-out social
service have been motivated by that
ideal. Take as illustrations Wil-
berforce and Lincoln in their labors
to free slaves.

What will enrich individual lives
and ennoble all life? What will en-
noble institutions? What will save
society and make it the mouth piece
of God?

What will ennoble institutions
What will humanize and save
commerce and industry? What will
cause the kingdoms of this world to
become the kingdoms of our God.

We have no magic wand to wave.
We firmly believe that the grace
of God in human hearts can ac-
complish these things. As the in-
tegration water causes the desert to
bloom so the spirit of God can make
the lives of men fruitful in good
things. But men can never achieve
the worthwhile if they see only the
seen. They must experience control
with the Invisible yet real God.

My dream maybe a long time in
being fulfilled but let us place our
hands and heads and hearts to the
great task.

The irreligious live for exped ends!
The religious endure because of the
unconditioned values.

With which group do you ally
yourself? In making your decision
remember the conduct of Moses and
may nothing less animate you. A
Christian is one in whom the invis-
ible Christ of souls finds a Bethle-
hem for His birth and a Calvary for
His resurrection.

SYDENHAM ECHOES

A number of ladies met at the
home of Mrs. C. Alexander on Tues-
day to shower Mrs. W. Woodward,
a recent bride, with gifts and good
wishes.

After a social hour lunch was ser-
ved by the hostess, assisted by Mrs.
Dixon, Mrs. A. C. Woodward and
Mrs. Hodgkins.

The little Misses Pauline Carl and
Georgina MacKay presented Mrs. W.
Woodward and Mrs. Harden each
with a lovely bouquet. They were
followed by Misses J. and B. Keen
with a well filled basket of gifts.
After each gift had been opened,
and admired by all, Mrs. Woodward
very fittingly expressed her appreci-
ation for the lovely and useful gifts
she had received.

The guests included:
Mrs. W. Woodward, Mrs. Harden,
Mrs. Carl, Mrs. H. Merrick, Mrs. C.
MacDonald, Mrs. MacKay, Mrs. Dixon,
Mrs. Seabrooke, Mrs. Croteau,
Mrs. St. Peter, Miss E. Merrick, Mrs.
Aykroid, Mrs. Boyd, Miss A. La
France, Mrs. Kinghorn, Miss Kath-
leen and Miss S. Kinghorn, Mrs. Keen,
Miss June and Miss Betty
Keen, Mrs. Pidgion, Miss Woodward
Mrs. A. C. Woodward, Mrs. Church,
Mrs. F. Church and Mrs. Hodgkins.

Miss Mary Drummond who has
been the guest of Mrs. John Ruste
returned to Edmonton on Monday.

Mr. and Mrs. F. E. Dixon were
visiting friends at Buffalo on
Tuesday.

Mr. and Mrs. J. Wyllie were the
guests of Mr. and Mrs. Watts on
Sunday, August 19th.

Miss Janet Croteau has returned
home from Legal where she spent
the past month with her uncle,
G. Alexander returned from Royal
Park on Tuesday. He has been in
charge of the Alberta Pacific Elevator
there during the month of July.
Mrs. Keith and children, of Cal-
gary, are the guests of Mrs. J.
McLennan. Mrs. Keith is spending
the summer months with her brother
Glenn Haire.

Mr. and Mrs. F. E. Dixon and Mr.
Wm. Murray motored to Vermilion
on Saturday.

Mr. and Mrs. Bootman, Mr. and
Mrs. Birken and Mr. and Mrs. E.
Dixon and family, of Hughenden,
were the guests of Mr. and Mrs. F.
E. Dixon on Sunday.

This Changing World

Probably no period of recorded history can show such a succession of surprising and kaleidoscopic changes, political and economic, as that through which we are passing. The vast complex of peoples and nations comprising the civilized world to-day is in a state of uniformly unstable equilibrium—an equilibrium disturbed from time to time by a variety of insurgencies both major and minor. So frequent are they, so unexpected their character, so far-reaching their effects, that few even of the great among the prophets dare risk portraying the face of things to come in the immediate future. They feel safer in making—and indeed they prefer to make—their predictions at long range, and to envision a world more remote in time than that which is likely to concern much the present much-abused generation.

The political and economic changes which occurred during the storm years of 1914-18, the revolutionary upheavals which wrecked dynasties and brought new state forms into being, probably were larger in scale. But they were not so numerous nor, for that matter, did they strike with such shock as those of more recent occurrence. The protracted strain of the war itself served to dull and deaden the sensibilities of the people directly subjected to it, and, more inured to shock, they were inclined to lump all the catastrophes into one—the War. They were inclined, too, to the belief that, once peace was restored, the world would quickly revert to the pre-war basis and settle anew to the ordered routine which seemed so stable until the unexpected happened at Versailles.

The world, however, has refused to settle down, refused to revert to the former status. The well-ordered machine which made this seem the best of all possible worlds until the summer of 1914, has never regained its old momentum. The people hanker for peace and a chance to routine their existence. They wish to remodel the new world on something like the old lines. But peace is denied them—peace, security and comfort, the comfort which comes from an untroubled life. All is unrest. They feel they sit upon a volcano about to erupt, and nerves agitated by uncertainties make them the more susceptible to the recurrent shocks which evidence the turmoil beneath. Thus the crises of the depression appear more menacing than those which occurred during war-time which stunned, rather than agitated.

Recent events in Austria and Germany are symptomatic of the times. The world looks on with anxiety while these two nations writhing in their efforts to evolve a state form which can bring harmony and happiness to their peoples. Equally significant to the world at large, however, are the experiments being tried in the United States and in Great Britain to evolve a new economy which will give work to the workless and restore the prosperity both, in the past, have enjoyed. Both experiments involve complete revolutions in the national economic life of those countries, but few would agree that either yet has found the solution within itself.

It is unnecessary to enumerate the many changes during the period of depression. Books on political and economic subjects become obsolete in a day. Anyone who reads knows that. Take, for example, the following quotation from a book which reached shelves of public libraries in Western Canada little more than a year ago:

"Nobody doubts, for instance, that America will overcome the present difficulties once it gets a grip on itself. France is sitting comfortably, and even Germany is held to have a fair chance. . . . But the issue is more doubtful for Great Britain because her malady seems more fundamental. Already, the British Empire has fallen from its former high estate."

The picture has been entirely reversed since then. Scarcely a statement in the quotation stands to-day—that is but a sample of the dangers besetting the world as prophesied in this dynamic fluid world. Apparently, the unstable condition will continue until every nostrum and every alleged cure-all has been tried and tried in vain. Then perchance, a world on the verge of ruin will realize that it is not so much the medicine that is wrong as the diagnosis. Indeed, were international enmity replaced by international amity almost any kind of political or economic medicine might cure remaining ills.

Realises Its Value

Governor-General Is Patron To Junior Farm Clubs

Club members and everyone associated with club work for farm boys and girls will sincerely appreciate the great honor that has been accorded to the junior farm club movement by His Excellency the Governor-General, the Earl of Beesborough, who has extended his patronage to the Canadian Council on Boys' and Girls' Club Work.

The recognition that His Excellency has thus given to the value of junior club work in Canada should encourage greater activity on the part of every club member and stimulate a deeper sense of the opportunities that are provided in this form of agricultural extension.

Up To The Architect

Instead of saying that man is a creature of circumstance, it would be nearer the mark to say that man is the architect of circumstance. It is character which builds an existence out of circumstance. From the same material one man builds palaces, another hovels, one warehouses, another villas. Bricks and mortar are mortal and bricks until the architect can make them something else.

Diarrhoea, Dysentery, Colic Cramps and Stomach Pains

Prompt treatment with Dr. Fowler's Extract of Wild Strawberry in such cases relieves the pains, checks the looseness of the bowels, and thus does away with the suffering, the weakness, and oftentimes the collapse associated with attacks of this kind.

It does this by checking the too frequent and irritating stools, settling the stomach, and bracing up the weakening system, thus making it a remedy for the treatment of bowel complaints of both young and old.

On the market for 88 years—you do not experiment when you use it.

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Seeking New Height Record

Wiley Post Will Use Flying Suit He Invented

With a specially constructed flying suit of his own invention, Wiley Post, world-circler, will soon take off in an attempt to better the present altitude record of 47,352 feet.

His well-known companion, the "Winnie Mae", a ship almost as famous as Lindbergh's "Spirit of St. Louis", has been remodelled with the addition of a new 420-horse power motor and two superchargers so that his speed is expected to be increased to 350 miles per hour at ordinary altitudes, and seemingly impossible velocities in the stratosphere where air resistance approaches "nil".

Post's flight is not primarily for purposes of breaking records, but to test his aircraft, he has announced.

"Engineers have always said if we had a variable pitch propeller and a super-charged motor we could fly in any altitude if the body could function normally," Post explained. "Well, we have the propellers and the superchargers and I believe this suit will conquer the last obstacle."

The suit consists of rubberized fabric trousers covering the entire trunk of the body up to the shoulders and a rubber top piece clipped by an aluminum head gear. The wearer will get air through the supercharger, which also supplies the motor. The suit, of course, is air-tight.

Post hopes to get enough information in his initial test to aid him in winning the \$50,000 London-to-Australia derby next October.

The water ouzel is the only song bird that has learned to dive into the water for its food.

British Dominions

Emigration Society

Secretary Returns To England After A Visit To Canada

Concluding his forty-second visit to Canada from Britain, Robert Culver, secretary of the British Dominions Emigration Society, returns on the Cunard White Star liner Ascania from Montreal.

"I am impressed," declared Mr. Culver in an interview, "with the improvement in Canadian business conditions over last year. There are many signs of material progress and a feeling of returning confidence among influential people I have met here this year. I feel that before

Rock Slide At Niagara

Huge Chunk Weighing Thirty Million Pounds Goes Over The Falls

A gigantic pile of rock estimated to weigh 30,000,000 pounds rose above the water in Niagara gorge recently, visible evidence of the second major rock slide from Horseshoe Falls since 1821.

Water was flowing over what was dry rock as sightseers thronged to the shore of Goat Island in an effort to obtain a view of the jagged, saw-like rim of the falls and the huge pile beneath it. But mist obscured the view, shrouding the secret of Nature's wonder.

The huge chunk fell from the cataract with a deafening roar that seemed to still the sound of water pouring over the precipice. The rock landed in the gorge, sending a spout of water more than 200 feet into the air.

The lip of one of Canada's great wonders lifted as if from a charge of dynamite, heaved, groaned and slid away with a roar. Where there was only a dribble of water a huge stream began to pour.

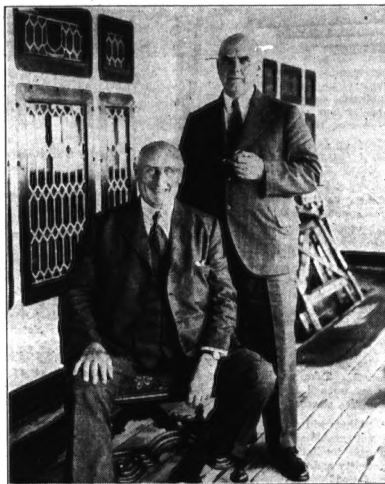

Niagara Falls, in its recent break, demonstrated a geological belief that this scenic wonder is only the last of the American Niagara, and like the others, is headed towards extinction within perhaps 20,000 years.

Brazil is chiefly an agricultural country and the diversity of climate facilitates the cultivation of practically every agricultural product. Nevertheless, Canada in the fiscal year 1933-34 exported \$237,511 worth of agricultural and vegetable products to Brazil, including wheat and showing an increase of \$202,108 on the preceding year.

Right Hon. and Right Rev. The Lord Bishop of London, The Right Rev. The Lord Bishop of Stepney, The Right Hon. Lord Lloyd, The Right Hon. Lord Middleton, Sir Archibald Weigall.

The society's Canadian manager is R. Gordon Burgoyne of Montreal; the local committee includes many business and professional leaders.

Committees of similar calibre co-operate with the society in Toronto, Halifax and Saint John, N.B. Assistance to emigrate takes the form of grants or loans made under varying conditions to suit circumstances, to British-born subjects of good character and sound health; also of advice and help to settlers after their arrival.

Robert Culver and R. Gordon Burgoyne of the British Dominions Emigration Society, who returned to Britain on the White Star liner Ascania.

long we shall have a greater opportunity of increasing the work of our society in the Dominion."

"The British Dominions Emigration Society was founded in 1883 by Frederick Kitto. During these 52 years over 37,000 have been assisted to emigrate, and the feature of the work I am most proud of is that we have never charged one cent interest on the money advanced. It was not surprising, therefore, though most gratifying to our society, to receive a commendatory letter from your Prime Minister, the Rt. Hon. R. B. Bennett, paying warm tribute to our work upon the occasion of our 50th anniversary. At the present time the work is almost entirely confined to the re-union of British families."

The society enjoys the high presidency of H.R.H. Princess Louise, Duchess of Argyll, and a list of distinguished vice-presidents which includes The Most Noble the Marquess of Salisbury, K.G., G.C.V.O.; The

"It has been found by our representatives in Canada," Mr. Culver said, "that large numbers of men go out, leaving their wives and families behind, with every hope and good intention of soon being able to send for them. They make good in the various cities and towns throughout Canada, but very quickly find that after keeping themselves and sending money home to help keep their wives and families in Britain, it is utterly impossible for them to save the amount required to bring their wives and families out. One of two things is then bound to happen—either the men have to throw up their good permanent work in Canada and return to the Old Country to swell the ranks of the unemployed there, or they have to receive assistance towards the cost of the transportation of their wives and families. We are very glad indeed to be able to take up this work, which we feel is of considerable importance."

Makes "Color-Music"

Attachment For Piano Invented By English Engineer

I. Shamah, English electrical engineer, has invented an apparatus for making "color-music" which may be used in any home as an attachment to a piano. By means of this, a drawing room may be flooded with diffusing lights which will automatically react in colors to whatever tune is played. He has so graded the vibrations of a piano in proportion to each other that each note has its own exact shade, so that it will be possible for instance, to play "God Save the King" in a combination of shades varying between red, white and blue; the "Blue Danube" in green and blue, or the "Moonlight Sonata" in yellow and silver. Another invention by Mr. Shamah enables one to "feel" music. You hold two metal tubes and when a tune is played you feel the rhythm of it like a beating pulse, which send a pleasant tingling sensation up the arms.

Telephone Of The Future

Eighty-Three Year-Old Scientist

Working On Improvements
Sir John Ambrose Fleming, a celebrated scientist who has had a good deal to do with the development of telephones, is the inventor of the thermionic valve—which made wireless telegraphy possible. "In a few years' time," he said the other day, "we shall probably chuckle over the recollection of what telephones were like in 1934. Everybody knows that the telephone is in its infancy; everybody knows that it can be improved enormously. What form will that improvement take? I am a scientist, not a prophet. The telephone may be a little box that you can carry in your pocket. It may become more elaborate than it is today. I do not choose to prophesy. I'm certainly not going to tell you on what lines I am working now to improve the telephone." Sir John Fleming is 83, and a very busy 83.

Making The Roads Safe

British Courts Do Not Handle Reckless Drivers Easily

British courts are ruthless with motorists who carelessly endanger the lives of others. Kaye Don is under sentence on this account, and another example is to hand in the sentence of a girl, recommended to mercy by the jury and therefore getting off with half the term the judge has intended to impose, sent to jail for six months for manslaughter. She said she had been ill and took some pills to relieve the pain, and had had three bottles of beer as well as the pain. Her driver's license was revoked and she was disqualified for life from driving. That is the way to make the roads safe.—Hamilton Herald.

Made Fast Trip

A homing pigeon, owned by Arthur Milner of Sault Ste. Marie, made a trip of 501 miles from Minneapolis to Sault Ste. Marie, in 25 hours. Released at Minneapolis one day at 9 a.m., the bird arrived at 10 a.m. the next day.

Bridge and bridge tournaments are regarded as gaming in England.

The First Motorcycle

Fiftieth Anniversary To Be Celebrated In Germany This Year

The fiftieth anniversary of the first motor-cycle is to be celebrated this year: a monument is to be erected to Gottlieb Daimler, in Schorndorf, Germany. Working behind the shutters of a shop in Stuttgart, Daimler and Wilhelm Maybach made the first motor-cycle, and in the same year the first motor-boat was launched in the river Neckar, a tributary of the Rhine. Believing the inventors were manufacturing counterfeit money, the police raided their workshop, and as there was considerable public fear of petrol, wires mounted on porcelain insulators were placed around the premises to give the impression that the motive power was electricity. In the following year the first "horseless" carriage left the shop. It was an ordinary horse-drawn carriage with metal tires in which one cylinder of 1½ horsepower was mounted. It achieved a speed of eleven miles an hour.

A Pulpit On Wheels

Sexton Places It Where People Can See Minister

In the Church of St. James, Croyley, is a pulpit on train lines. The pulpit which existed before 1888, was very high and ugly, so it was decided to cut it down to its present proportions. When placed in a certain position in the church it concealed the altar, and when in the only other suitable position, people in the gallery could not see the preacher. Now, before the sermon, the sexton pushes the pulpit on its lines to the centre of the church, and after the sermon it is pushed back again.

Gigantic Wine Cask

Heidelberg's famous cask will be a mere barrel compared to a wooden giant under construction at Bad Dueschheim, Germany, and destined to be the world's largest wine vat. Resting on foundations of concrete it will have a capacity of 350,000 gallons, against the mere 50,000 gallons of the Heidelberg barrel.

OFF COLOUR?
HOW IS YOUR LIVER?

Wake up your Liver Bile
—Without Calomel

Your liver's a very small organ, but it certainly can get into deep trouble and eliminate wastes out of kilter by refusing to pour out its daily two pints of bile into your bowels. You won't completely correct such a condition until you take a course of **Little Liver Pills**. When they're gone, your liver's back to normal and you'll be a liver stimulant.

Caution: Little Liver Pills will soon bring back the normal tone to your liver. They're purely vegetable. Safe. Ask for them by name. **Little Liver Pills**. See all druggists.

W. N. U. 2990

HOLD DEBATE ON THE ISSUE OF ACREAGE CUT

London.—Delegates to the international wheat conference engaged in a "free-for-all" debate on the issue of acreage reduction, an agreement on which is being urged by the Canadian-United States-Australian bloc.

This bloc, composed of three of the four big producers—Argentina is the other—is seeking an agreement also on tentative export quotas as well as a quarterly system of quotas, which would be more elastic than the annual system in effect last year.

A communique stated that 200 quotas have yet been arranged, and the sub-committee which will draw up figures has not yet been named.

It was believed that Canada, with huge stocks, may get the full 268,000,000 bushels tentatively agreed upon several months ago.

Whether Argentina gets the 148,000,000 discussed at that time would appear at present to depend upon how much progress has been made in acreage reduction.

Both the United States and Australia, it was said authoritatively, are likely to take substantial reductions below the tentative allotments of 150,000,000 and 84,000,000 bushels.

The three-nation bloc is interested in obtaining a commitment from Argentina for further acreage reduction. It is known that Argentina is asking a quota of 150,000,000 bushels as its export allotment for the year ending July 31, 1935, and that the United States is willing to take a considerable reduction in her quota. It was on good authority that the United States might accept a quota of 30,000,000 bushels.

It was understood Russia now is ready to accept a quota. She refused to take this step last year. Indications now are that the Soviet will have little, if any, wheat to export during the year.

Owing to favorable reports from Canada, the delegates of exporting nations are now more optimistic that wheat prices will attain the level at which importers promised to reduce the tariff barriers—namely an average of \$3.08 gold cents a bushel, maintained for 16 weeks.

John I. McFarland, of Winnipeg, chief Canadian delegate, expressed dissatisfaction at the European reduction, saying that 85 per cent. of the wheat acreage reduction had been accomplished by overseas countries. He estimated that 13,000,000 acres had been taken out of the wheat-producing lands in the last year, aside from reductions in Russia and China, and he called this reduction "a solid achievement to the credit of the international wheat agreement."

An interesting disclosure, made to the conference by Andrew Cairns, of Canada, was that the average price of wheat imported into Britain during the first 10 days of August was 55.6 per-devaluation gold cents a bushel, the highest price since the wheat pact was signed.

Labatt Is Released

Victim Of First Ransom Kidnapping Returns Unharmed

Toronto.—Darkness that enshrouded the release of John S. Labatt, wealthy brewer, of London, Ont., was pierced when it was learned that the kidnapped man had been brought to the hotel from which his brother Hugh conducted negotiations with the abductors.

The brothers left the hotel secretly and sped to London where John S. Labatt met his wife and three children. The victim of Canada's first ransom kidnapping was unharmed but haggard and nervous.

With his brother he entered his home and even closest friends were not permitted to disturb him. Complete rest was the order for the millionaire who suffers from a heart ailment, an affliction that caused grave concern while he was in the hands of the gangsters.

Clarke Savage, of the law firm of Ivey, Elliott and Ginders, announced the termination of the three-day search for Labatt, a search that saw all the forces of the law available in the province thrown into action.

For Big Navy

Washington.—Gliding toward a fleet second to none in the world, the United States navy opened bids for 24 fighting vessels. Included are: Four cruisers, 14 destroyers and six submarines. The submarines and destroyers will be the first vessels laid down under the act of congress authorizing the building of the navy to treaty strength.

W. N. U. 2060

Devastating Hail Storm

Thousands Of Acres Of Crops Destroyed In Alberta

Lethbridge, Alta.—Thousands of acres of crops, mostly wheat, are in ruins, destroyed by the most devastating storm to strike southern Alberta in years. The loss, it was estimated, will be far above the \$500,000-mark, many of the fields unprotected by insurance.

In a sweep 10 miles wide and 50 miles long, the storm struck with a deluge of rain followed by the destructive hail which in a few minutes battered down crops ready for the harvest. Farmers counted their losses which ranged as high as 100 per cent.

From Okotoks through Azure, Cayley, Nanton, Commenara, Vulcan to east of Champion and Carmangay the hail took its heavy toll, ruining crops that gave promise of yielding more than 20 bushels to the acre. With the blades standing in the fields the crops were mowed down. The hail beat across 12,000 acres in the Nanton-Commenara area, with losses estimated at 40 per cent, while 6,000 acres in the Cayley district suffered loss of from 15 to 100 per cent.

In many places the hail laid on the ground inches deep after the storm passed, and with the torrential rain, fields were turned into miniature ice-covered lakes. Hundreds of birds were killed by the flying hail stones.

Feed Situation Not Greatly Improved

Dried-Out Farms In Alberta To Be Checked Up

Edmonton.—Intensive investigation is being conducted by the provincial government into hardships caused by drought and hail in certain sections of Alberta, Premier Reid states.

The premier was interviewed by a delegation, members of which placed their various situations before him. Replying to the delegation, the premier said that it was apparent some relief would be needed in dried-out parts, and while there was some possibility of improvement in the feed situation, only a slight possibility existed. Therefore, arrangements were being made for a canvass of the situation.

Wheat Sales

Alleged That British Interests Made It Difficult To Sell Wheat

London.—During the past crop year British interests took a position in the Winnipeg market which made it difficult for Canada to sell her crop, John MacFarland, general manager of the Canadian Wheat Pool is reported to have declared at a closed meeting of the international wheat advisory committee.

Increased offerings at Liverpool on the part of Argentine shippers depressed the market, Mr. MacFarland is supposed to have stated. The British traders' action in Winnipeg is said to have followed in an effort to forestall any sudden rise in prices, should the Argentine pressure be relieved.

Assistance For Indians

Aid Given To Indians In Saskatchewan Was Third Lowest In Dominion

Regina, Sask.—Cost of assistance among the Indian population of Saskatchewan in the year 1933-34 was only 4.94 for each individual assisted, according to W. Murison, Saskatchewan inspector for Indian affairs. This is one of the three lowest figures in the Dominion, and it covered hospitalization, food, clothing, implements and seed grain and other relief expenditures.

Mr. Murison returned to Regina after a three weeks inspection tour of Indian agencies through the province. He was accompanied by Dr. H. W. McGill, deputy superintendent general of Indian affairs at Ottawa.

Fear Wet Harvest

Scattered Showers Over Dry Areas As Cutting Commences

Winnipeg.—Prospects of a wet harvest season for garnering small crops in drought areas of the West troubled some of Western Canada's farmers to-day.

Rain in recent days visited more than a score of drought sections of Manitoba, Saskatchewan and Alberta. Starting with scattered showers, the rainfall increased to heavy storms in some areas. Manitoba points to a forecast of a deluge from the south. Deluge occurred rain before the hail deluge received and in some of southern Saskatchewan's dry belts precipitation was reported.

For World Peace

Pacifist Urges Christians To Refuse To Fight

Edmonton.—The Christian alternative for maintenance of world peace by armament preparation is substitution of the missionary way for the military way, declared Rev. Leyton Richards, D.D., of London, England, in a public address here. Dr. Richards, noted international pacifist, is lecturing in connection with the United Church School of Religion sessions.

The aim of the Christian church is not direct elimination of evil but destruction of the cause of evil," the speaker declared. "We do not wish to destroy the enemy, we wish to destroy enmity. To wage a war to end war results in multiplication of disturbances; the only way to eliminate international conflict is for Christians to refuse to fight. Christians cannot kill men in the name of Him who died for men."

Pleading for dissemination of the gospel of peace, Dr. Richards asserted that the British Empire spends 1,000 times as much for the nation's money in preparation for war as it does for maintenance of peace. "England could not do the Christian thing in the 1914 dilemma because it was not a Christian nation," he said.

FEDERAL AID FOR ALBERTA SAID TO BE SATISFACTORY

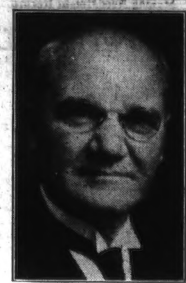

Ottawa.—The province of Alberta now has before it a statement of what the Dominion government is prepared to do by way of assistance under the new "lump sum" payment plan. Described by Hon. George Hoodley, of the Alberta government as fair in view of the obligations which the Dominion is called upon to meet, the proposal comprises a monthly grant of \$100,000 for direct relief and loans aggregating over \$1,000,000 to Alberta cities and relief projects.

Loans to cities, aggregating \$750,000, are divided as follows: Edmonton, \$500,000; Calgary, \$200,000; Lethbridge, \$50,000. To complete the Jasper highway, the Dominion will advance \$125,000. It will also furnish \$150,000 to assist in completion of the Alberta section of the trans-Canada highway.

The three Alberta cities will receive considerably less than they requested under the Dominion proposal. In the case of Edmonton the request was for \$1,500,000 of which a million was to be used for public works. Only \$500,000 is granted, but no strings are attached to it. Calgary's request for half a million was implemented only to the sum of \$200,000. Lethbridge asked for \$150,000 and got \$50,000.

A further amount of \$25,000 which the Dominion will contribute is earmarked for assisting in the payment of labor costs of a new building being erected at the Ponoka mental institution.

HEADS DELEGATION

Dr. John MacNeill, formerly of the First Baptist Church, Winnipeg, who is the chief Canadian delegate at the World Baptist Alliance which is meeting in Berlin, Germany. Dr. MacNeill is president of the congress, which is attended by delegates from sixty countries.

To Teach Agriculture

Subject For Ontario Schools Beginning At Third Year

Fort William, Ont.—Speaking at the Lakeshore exhibition, Hon. Duncan Marshall, minister of agriculture in Ontario, announced that the new government had decided to have agriculture taught as part of the public school curriculum in the province, beginning at the third book level.

The minister of education is now working on the details which will involve the instruction of teachers in the upper grades. The Hepburn government, he said, had as its aim the improvement of marketing and educational conditions to meet the needs of the farmer, and intended to try to give all children passing through the schools an insight into and love of agriculture.

Admiral Byrd Recovering

Takes Stroll In Open Air With Temperature 61 Degrees Below Zero

Little America, Antarctica.—Rear Admiral Richard E. Byrd had recovered sufficiently from a touch of bad health to take a stroll in the open air at his advance base, 123 miles south of here. The admiral had a temperature of 61 degrees below zero for his stroll.

Dr. Thomas C. Poulter, second-in-command of the Byrd expedition reported the trip back to Little America will depend on the health of Admiral Byrd.

Might Mean Complications

Montreal.—Any tampering with the British North America Act would be bound to entail serious complications, Premier L. A. Taschereau, of Quebec, declared here. His statement was made when questioned concerning the reported plan of Premier R. B. Bennett to call an inter-provincial conference in the fall to study certain amendments to the constitution of the Dominion.

Canada And Australia Reach An Agreement

Australia Not To Sell Flour In Eastern Canada

Ottawa.—Under an arrangement arrived at by the governments of Canada and Australia, the latter will prohibit further shipments of Australian flour to Eastern Canadian ports. Australian flour will be permitted to enter Western Canadian ports free of customs duty.

Announcement of the new arrangement was made at the office of the prime minister. The matter has been under negotiation between the two governments since last June when Canada gave notice, as provided by the trade agreement, that the sale of Canadian flour was being prejudicially affected by shipments of Australian flour into eastern Canadian markets.

It was explained there has been a market for Australian flour on the west coast for many years. The arrangement now reached will not interfere with this.

Auction Sale Of Cars

Ontario Government Cars To Receive Publicity

Toronto.—Auction sale of nearly 100 Ontario government automobiles will be held August 28 at Varsity stadium, Premier Mitchell F. Hepburn announced recently. The cars will be passed in review, bearing the names of the members of the former cabinet who rode them.

Bidders will occupy the main grandstand and the auctioneer will stand on a platform directly in front of the cars. Besides bearing the name of the cabinet minister, the cars will also carry placards showing the mileage covered and the cost of upkeep during the car's life.

ARGENTINE ASKS FOR A LARGER WHEAT QUOTA

London.—Argentina's demand for an export quota of 150,000,000 bushels of wheat during the current crop year, just started, was understood to have been presented to the international wheat conference.

This and the drawing up of a communique by the closed meeting, recognizing the necessity for introducing more elasticity into the quota system for the current crop year, were highlights of the proceedings.

The speech by Rodolfo Garcia Arias, Argentina's new wheat delegate, included presentation of Argentina's case in the long controversy with the three other big exporters, Canada, Australia, and the United States. Various other representatives outlined the attitude of their nations towards the future operation of the 1933 wheat pact. None of the speeches were made public.

Garcia Arias, however, was reliably reported to have given an optimistic report on acreage reduction in the Argentine. He was understood to have charged other big exporters with placing obstacles in the way of the Argentine's efforts to persuade farmers to plant other crops, by refusing to increase her quota when she sought enlargement last May.

Argentina exceeded her quota of 110,000 bushels for the crop year ending July 31, covered in the wheat pact, by some 34,000,000 bushels. Other big exporters were under their quotas.

The Argentine delegate was said to have stressed that when the quotas were accepted the Argentine had no expectation of the bumper crop that actually developed.

Argentina, he explained, depends on selling on a quantity, not quality, basis, and therefore firmly opposed the minimum price scheme which fell through this spring. He also it is understood, declared the others could easily allow her a bigger quota as she alone among the big exporters expects a good crop this year.

The communique issued at the close of the meeting said the delegates were generally agreed that while the 1934 crop in North America would lead to an easier position as regards the surplus stocks, it must be realized any abandonment of international collaboration to adjust supply and demand in event of normal yields next year, would lead to an accumulation of new surpluses.

Andrew Cairns of Canada, the permanent secretary, said the committee's attempts to increase world consumption were disappointing except in France, where the combination of low quality of flour extracted from wheat and of denaturing for livestock feed resulted in considerable increase in consumption.

PAYS TRIBUTE TO PEOPLE OF NEW BRUNSWICK

Saint John, N.B.—A monument to the achievement of man over great hardships, a source of genius which had enriched the entire Dominion and a land of opportunity for the youth of to-day, was the picture of New Brunswick after 100 years of existence as a province, given to a vast audience by Prime Minister R. B. Bennett.

The commission constituting New Brunswick was executed by the British crown on August 16, 1784, and dignitaries of the church and state, the army and the navy, joined with thousands of citizens to make the sesquicentennial with pageantry and oratory.

Highlight of the proceedings was the dedication of the new provincial museum, erected as a symbol of 150 years of progress.

In spite of improving economic conditions and evidence of recovery on every side, Canada in common with most of the world had still to solve one of the sternest problems growing out of depression—the question of whether the so-called capitalist system would be retained or replaced by a system opposed to it. This was the declaration of Mr. Bennett, addressing a banquet audience at night as part of New Brunswick's sesquicentennial celebration.

Mr. Bennett voiced a solemn warning that, while every effort of the Dominion government had been directed toward maintenance of the capitalist system, allied to the part of a nation so closely allied to Canada as was the United States to adopt a radically different policy would make a tremendous impression upon the economic life of the Dominion.

It was near the conclusion of the prime minister's address that he sounded a warning to thinking men of Canada, rich in bitter experience of the recent years and the quick changes taking place in other nations, that they should think in terms of the effect upon Canada of the play of forces in countries allied to the Dominion but over which the Dominion had no control or influence.

Insect Pests

Cutworm And Grasshopper Survey To Be Made In Saskatchewan

Regina, Sask.—Cutworms and grasshoppers in Saskatchewan and Alberta are due to go under the axe as entomologists of the entomological branch of the Dominion department of agriculture set out on field surveys of the 1934 insect crop.

A group of officials of the department from Lethbridge, Alta., who will conduct the annual survey for pale western cutworms through Saskatchewan and Alberta during the next three weeks, arrived here recently.

Gangster's Weapons

United States To Stop Sale Of Machine Guns

Washington.—The United States government seeks to stop free circulation of the gangster's favorite weapon—the machine gun.

If a person possesses a machine gun after next month he will have to register it with the commissioner of internal revenue.

If he wants to get one after Sept. 24 he will have to get an order from the commission, be finger-printed, and pay a price boosted by a sales tax of \$200.

Effect Big Saving

Ontario Premier Says Saving Of Two Million Dollars Already Effectuated

Newmarket, Ont.—Premier Mitchell F. Hepburn of Ontario told a North York Liberal convention the government had made a \$2,000,000 saving in administrative expenses since taking office and declared an other \$100,000 would be saved in the auditing of departmental books.

The convention elected Col. W. P. Mulock as the Liberal candidate for the federal by-election in North York.

Japan Wants Friendship

Victoria.—"Japan desires the friendship of the world much more than she wants territory," K. Inabata, member of the house of peers and Japanese industrialist said here recently following his arrival from Yokohama. It is en route to Belgrade to attend the forthcoming world inter-parliamentary conference.

It isn't a pretentious house, this home of William Ballough, who farms near Abernethy, Saskatchewan, but flowers and shrubs have turned it into a beautiful spot. With a belt of Manitoba maples on the west side of the farm, which affords shelter from the prevailing winds, almost every type of flower listed in the seed catalogue is growing in the garden, while trees and vines and shrubs have added wonderful charm to the mellow old place. The top picture shows the vegetable garden at the back of the house which would supply a small village with its vegetables, while the bottom picture shows a section of the front garden.

Notice to Threshermen Licences Now Due

All operators of Threshing Rigs and Combines Are Required to Register each season with the Department of Agriculture at Edmonton, and obtain a License to Operate, the Fee for which is ONE DOLLAR. This Fee is now Due and Payable for the Season of 1934. All those Operating Threshing Rigs or Combines Without Such License are Liable to prosecution.

Application for licenses should be made at once to municipal secretaries or to

Department of Agriculture
EDMONTON ALBERTA

Wainwright Local News

Dr. and Mrs. McBeth, of Edmonton, are visiting with Dr. and Mrs. H. C. Wallace.

The dance held in the Odd Fellows Hall on Monday night was small but a good time was had by those present.

Henry Swanson spent the week-end at Marwayne and Cold Lake. He was accompanied by Misses Mae, Margaret and Helen Tolmie.

Mrs. Jack Laird underwent an operation for appendicitis on Friday. We are glad to report she is improving nicely.

Clarence Rowe and son made a trip to Killam on Sunday to visit his sister, Mrs. McGowan.

Mr. and Mrs. E. R. Frickeleton and Eileen, left on Saturday by motor for a trip to Nebraska to visit Mrs. Frickeleton's parents. They expect to be gone about three weeks.

Mr. Clifford Price and son, Marion of Lansing, Michigan, motored out to visit with his sister, Mrs. Chas. Brislow, of Battle Valley district.

Mr. and Mrs. W. T. Lane and family returned from their holiday in the East a few days ago. They motored back in a new Dodge sedan of which they had taken delivery in Windsor.

Miss Irene Plaxton has been engaged as teacher of Mayfield School for the ensuing term.

Mr. A. H. Muddle, agent for the Northern Elevator at Greenhills reports having just taken in the first load of 1934 wheat for that district. It is believed the grain will grade a No. 1.

We are pleased to report that Mrs. Wm. Reynolds is much improved in health.

Frank Wright is in charge of the Calgary Power plant at Hardisty during the absence of H. Riley.

Mr. and Mrs. F. C. Grent, of Regina, are visiting at the home of Mr. and Mrs. Jim Wyllie for a few weeks.

Miss Violet Taylor underwent an operation for appendicitis on Tuesday.

Miss Evanson, who has been visiting for some time with friends in town, left on Tuesday morning.

Bill Townsend, of the Bank of Montreal Staff, underwent an operation for appendicitis on Monday.

Amos of "Amos & Andy," Radio celebrities, went through town last Wednesday night. He expressed his appreciation of what he saw and said he would be back soon to take a drive through Buffalo Park.

Howard Pigeon was operated on for appendicitis last week.

Dr. Courser's family moved back to town from their cottage at Clear Lake this week.
